SUMMARY:

Business Data Analyst with 3+ years of experience, now seeking opportunities as a Snowflake Developer / Data Engineer, with 4+ years of strong hands-on experience in Snowflake-based data engineering and analytics solutions.

TECHNICAL SKILLS:

- **Snowflake:** Snowflake(SQL, **Snowpark, Streams, Tasks, COPY, Stages, Cortex AI, Streamlit**),
- **Data Analytics & AI Tools:** Power BI, Tableau, Python, SQL, n8n
- **Databases:** MySQL, PostgreSQL, MongoDB, PI/SQL
- **ETL & Cloud:** Matillion ETL, Alteryx, AWS(s3)/EC2, Azure, GitHub

PROFESSIONAL EXPERIENCE:

Business Data Analyst | CHOICEDGE

Jan 2024 - Nov 2025

Nagpur, India

- Implemented and managed **Bitrix24 CRM** from scratch for a real estate & interior design startup, configuring leads, deals, pipelines, customers, and projects, and designing **Smart Process Automation (SPA)** to support property sales, client onboarding, project execution, and cross-functional workflows across Sales, Operations, and Marketing teams.
- Designed and deployed data capture forms integrated with automated workflows, and supported data ingestion, transformation, and validation to deliver analytics-ready datasets.
- Built and deployed a real-time Power BI dashboard integrated with Bitrix24 CRM, building data models across **10+ tables from SQL Lab, Excel, and Google Sheets with advanced DAX** measures, enabling streamlined tracking of **15+ KPIs** and reducing report turnaround time by **40%**.
- Optimized 20+ complex SQL queries in Trino database using joins, subqueries, and aggregations, while implementing automation workflows and ETL-driven sales pipelines to enhance reporting accuracy by **60%**, boost lead conversion by 50%, and reduce manual work by 90%.
- Structured **Star Schema-based data models and created fact & dimension, summary & KPI** tables for transactional data, improving query performance and enabling analytic scalability.
- Oversaw data governance and security by managing **administrator accounts**, creating user roles with restricted access, and ensuring compliance and data integrity.
- Led stakeholder engagement by gathering and documenting BRD/FRD/SOP, conducting cross-functional training, and acting as a bridge between business and technical teams to ensure accurate implementation of data-driven requirements.

Home Tutor | Kulkarni home tutor | Pune

May 2018 - Apr 2020

Sales Coordinator | PHP Marketing Pvt Ltd | Pune

Sep 2018 - May 2019

INTERNSHIPS:

Data Analyst Intern | Psyliq | Hyderabad(Remote)

Dec 2023 - Jan 2024

- Modeled and visualized pharmacy datasets using MySQL, delivering interactive dashboards that improved decision-making efficiency by 30%.

Data Analyst Intern | 360DigiTMG | Hyderabad (Remote)

Nov 2023 - Dec 2023

- Optimized machine downtime analysis by identifying inefficiencies and root causes, driving data-driven strategies that cut unplanned downtime by 10% and generated cost savings of \$1M.

Data Analyst Intern | Mentored Minds | Pune (Remote)

June 2023 - Oct 2023

- Captured and validated data via forms and APIs, automating reporting pipelines and Power BI dashboards to reduce production costs by 10% and manual reporting effort by 60%.

Data Analyst Intern | Ineuron Bangalore (Remote)

Aug 2021 - June 2022

- Analyzed 16 years of multi-source expenditure data and built interactive Power BI dashboards for NITI Aayog, uncovering key spending patterns and improving decision-making efficiency by 70%.

EDUCATION:

BE Mechanical Engineering | RTM Nagpur University(GPA:9.89)

2013 - 2017

PROJECTS

1. **Build A Production Grade Snowflake - Cortex AI Agent** | [Github](#)
 - Designed and deployed a **production-grade AI agent using Snowflake Cortex, Snowpark, and Streamlit**, delivering **real-time analytics and natural language querying**, reducing ad-hoc SQL dependency by **70%**.
 - Built **end-to-end ELT pipelines integrating CRM, deal, product, and sales data into Snowflake using AWS S3, stages, COPY, streams, and tasks**, enabling **near real-time refresh (<15 min latency)**.
 - Implemented **predictive forecasting, deal risk analysis, and sales recommendations**, improving **forecast accuracy by 30%** and increasing **sales win-rate by 18%**.
 - Delivered **secure, scalable architecture with RBAC, query optimization, and warehouse tuning**, reducing **compute cost by 25%** while improving **dashboard response time by 40%**.
2. **Retail Sales Data Analysis (FSDA-ineuron)** | [GitHub](#)
 - Built an **end-to-end ETL pipeline** for Retail Sales Analysis using **AWS S3, Snowflake, and Python**, automating ingestion, transformation, and validation of **2.5M+ records**.
 - Implemented **data cleaning, deduplication, and schema standardization** using Python, improving data quality and reducing downstream errors in analytics workflows.
 - Automated **EDA and profiling tasks in JupyterLab**, cutting manual analysis effort by **~80%** and enabling **daily scheduled refreshes** of curated datasets into Snowflake.
3. **Banking Financial Data Analysis (FSDA-ineuron)** | [GitHub](#)
 - Designed and implemented end-to-end Data analytics **cloud-based data pipeline** migrating Excel and source system data to AWS S3, performing **data cleaning, wrangling, and transformations** within Snowflake using optimized SQL and schema design and validation to enable near real-time reporting in Power BI.
 - Built and maintained **dimensional data models (fact & dimension tables)** in Snowflake to support scalable analytics, improving query performance and consistency across reporting layers.
 - Developed **interactive Power BI dashboards** with advanced **DAX measures and calculated columns**, delivering insights on transactions, loans, and customer behavior—**reducing reporting time by 40%** and enabling data-driven product and targeting decisions.
